# UNITED STATES DISTRICT COURT SOUTHERN DISTRICT OF NEW YORK

In re Terrorist Attacks on September 11, 2001

03 MDL 1570 (GBD)(SN)

ECF Case

This document relates to:

Ashton, et al. v. al Qaeda Islamic Army, et al., 02-cv-6977 (GBD)(SN) (and member case Burlingame v. Bin Laden, et al., 02-cv-7230)
Ashton, et al. v. Kingdom of Saudi Arabia, 17-cv-02003 (GBD)(SN)

# DECLARATION OF PLAINTIFF EILEEN LYNCH IN SUPPORT OF APPLICATION FOR A REVISED DEFAULT JUDGMENT AGAINST IRAN

Eileen Lynch, pursuant to 28 U.S.C. § 1746, declares under the penalty of perjury under the laws of the United States of America, that the following is true and correct:

- 1. I am the court-appointed personal representative of the Estate of Farrell Lynch, who perished at the World Trade Center as a result of the terrorist attacks on September 11, 2001.
- 2. I submit this Declaration on my own behalf as the spouse of Farrell Lynch and on behalf of the only other New York State designated "heirs" of my late husband, our three children: Anne Lynch, Kathleen Lynch, and Meghan Lynch.
- 3. I can affirm to the Court that my deceased husband lived with me and my three children at a private home at 43 Seaspray Drive, Centerport, New York 11721 at the time of his death. I can further affirm that my children and I were the only "immediate family members" living with my husband and that no other family member lived with us (or was dependent on my husband financially or emotionally) at the time of his death.

Case 1:03-md-01570-GBD-SN Document 5395-1 Filed 12/23/19 Page 2 of 20

Finally, I aim artism that the death of my hashand affected me and our children.

not only in the days following his death, but his death continues to adversity affect our

omotional and financial condition up to and through the present day.

5. I am now represented by the Lavy Office of John F. Schurty, P.C. My prior

lawyers obtained a detault judgment for me personally and on behalf of my three children only

for xolaitum damages.

6. My prior attorneys (Speiser Krause) did not seek a default indoment preymosty

for the following damages: (a) the economic loss suffered by my late husband's Estate as a remit

of his death, or (b) for my late hasband's conscious pain and suffering before his death (by

previous court order. \$2 million per decedent). I am asking this Court to add these damage tiems.

to the default judgment entered against the Islamic Republic of Iran on my behalf and on behalf

of my three daughters.

7 Annexed hereto is the Report of Dr. Gary Crakes summarizing the economic loss.

sustained by the Estate of Farrell Lynch as a result of his death. Dr. Crikes has opined that my

husband's Estate sustained economic losses totaling \$18,289,314

9. For the foregoing reasons, I ask that the Court deem my children and me as the

only "immediate family members" of Farrell Lynch and thereafter unter a default judgment

award in the amounts requested by our new attorney (and economist).

Dated New York, New York

December 20, 2019

I declare under penalty of perjury under the laws of the Linted States of America that the

foregoing is true and correct

Eilcen Lynch

RE: Farrell Lynch

Jeanne M. O'Grady, Esq. SPEISER KRAUSE Counsellors at Law 800 Westchester Avenue Suite 608 Rye Brook, NY 10573

Dear Ms. O'Grady:

The following report on the economic loss of the above named is an objective estimate of the loss in this case, measured as scientifically and accurately as the data permit.

If you have questions about calculations or concepts or feel that additional aspects should be explored, please contact us. Exhibits I and II in this report are prepared to be suitable as enlargements for use at trial.

If the case is not settled, please schedule time for appearance at trial sufficiently in advance that we may plan accordingly.

Respectfully submitted,

Gary M. Crakes, PhD

GMC:dc

Discussion of appraisal: Farrell Lynch

Farrell Lynch was born March 7, 1962 (1962.18) and died September 11, 2001 (2001.70) at age 39.52 years with life expectancy of 37.13 years and work-life to age 70 of 30.48 years. See Exhibit II.

In this appraisal of the economic loss of earning capacity, we have calculated the lifetime earnings of Farrell Lynch with work-life to age 70 based on a 2001 annual earnings rate of \$874,844. Calculation of the value of lifetime earnings based on a 2001 annual earnings rate of \$874,844 results in earnings loss for the 16.30 years in the past of \$17,572,869 with adjustment for each year in the past by the annual percentage change in general levels of earnings. Calculation of future discounted earnings assumes that the future average annual rate of growth of earnings will be equal to the discount rate. With this assumption and current estimated annual earnings of \$1,298,120, future discounted earnings are \$18,407,342. Total discounted lifetime earnings based on a 2001 annual earnings rate of \$874,844 are \$35,980,211. This value appears as the first entry to the summary, Exhibit I.

Further shown in the summary, Exhibit I, is a deduction for federal, state, and city income taxes of 45.00% of earnings. The percentage for federal income tax was obtained using tax rates for the years in the past and the tax rates from the federal personal income tax schedule displayed in Exhibit IV. (Exhibit V presents historical tax rates from 1947 to 2014 and demonstrates the relatively small percentage point changes in rates over time.) With the deduction for federal, state, and city income taxes, after-tax discounted economic loss is \$19,789,116.

Next shown in Exhibit I is a deduction of 10% of gross earnings as an allowance for personal maintenance expenses. (See Consumer Expenditures in 2015, U.S. Department of Labor, Bureau of Labor Statistics, April, 2017.) With this deduction, discounted economic loss is \$16,191,095.

Finally, we have included two additional values. First, we have included the value of fringe benefits calculated at 5% of earnings. (For the average benefit payments in the United States, see Exhibit VI with data from the Bureau of Labor Statistics, U.S. Department of Labor.) Second, we have included the value of Farrell Lynch's household services. Data for the estimate are presented in Exhibit VII and are derived from "Time Use During the Great Recession", Mark Aguiar, Erik Hurst, and Loukas Karabarbounis, American Economic Review, August, 2013 and wage rates from the Bureau of Labor Statistics, U.S. Department of Labor. Adjustment and application of the appropriate values provides an estimate of discounted loss of \$299,509, canceling future rates of increase by the discount rate. With the addition of these values, discounted economic loss is \$18,289,614. See Exhibit I.

It is our opinion that the discounted economic loss in this case is \$18,289,614.

# Summary of appraisal: Farrell Lynch

	•		Discounted values
I	Basic earnings based on 2001 annual earnings rate of \$874,844		\$35,980,211
II	Less federal, state, and city income taxes at 45% of earnings		-16,191,095
		Subtotal	\$19,789,116
III	Less personal maintenance at		
	10% of earnings		<u>- 3,598,021</u>
		Subtotal	\$16,191,095
IV	Plus value of fringe benefits		1,799,010
		Subtotal	\$17,990,105
V	Plus value of household services		299,509
	Total net discounted economic loss		\$18,289,614
